QID : 214 - Read the passage carefully and select the best answer to each question out of the given four alternatives.

The conclusion of World Trade Organization's 11th biennial ministerial conference at Buenos Aires was worrisome. From an Indian standpoint, there was no loss as status quo continues in the most important issue: the right to continue the food security programme by using support prices. But the inability of the negotiators to reach even one substantive outcome suggests that WTO's efficacy is under question. As a 164-country multilateral organisation dedicated to crafting rules of trade through consensus, WTO represents the optimal bet for developing countries such as India. Strengthening WTO is in India's best interest.

Perhaps the biggest threat to WTO's efficacy today is the attitude of the US. The world's largest economy appears to have lost faith in the organisation and has begun to undermine one of its most successful segments, the dispute redressal mechanism. This is significant as the US has been directly involved in nearly half of all cases brought to WTO. Separately, large groups of countries decided to pursue negotiations on e-commerce, investment facilitation and removal of trade obstacles for medium and small scale industries. By itself this should not weaken WTO. But it comes at a time when there is growing frustration with gridlock at WTO.

India did well to defend its position on its food security programme. The envisaged reform package which will see a greater use of direct cash transfers to beneficiaries will be in sync with what developed countries do. But it's important for India to enhance its efforts to reinvigorate WTO. In this context, India's plan to organise a meeting of some countries early next year is a step in the right direction. WTO represents the best available platform to accommodate interests of a diverse set of nations. Therefore, India should be at the forefront of moves to fortify it.

Why was the WTO's 11th biennial ministerial conference worrisome?

Options:

- 1) Denial of states quo.
- 2) Inability of negotiators to reach to substantive outcome for the problems.
- 3) Rift in the policies suggested by WTO on IPR.
- 4) Non-cooperation from Indian government on various matters.

Correct Answer: Inability of negotiators to reach to substantive outcome for the problems.

Candidate Answer: Inability of negotiators to reach to substantive outcome for the problems.

QID : 215 - Read the passage carefully and select the best answer to each question out of the given four alternatives.

The conclusion of World Trade Organization's 11th biennial ministerial conference at Buenos Aires was worrisome. From an Indian standpoint, there was no loss as status quo continues in the most important issue: the right to continue the food security programme by using support prices. But the inability of the negotiators to reach even one substantive outcome suggests that WTO's efficacy is under question. As a 164-country multilateral organisation dedicated to crafting rules of trade through consensus, WTO represents the optimal bet for developing countries such as India. Strengthening WTO is in India's best interest.

Perhaps the biggest threat to WTO's efficacy today is the attitude of the US. The world's largest economy appears to have lost faith in the organisation and has begun to undermine one of its most successful segments, the dispute redressal mechanism. This is significant as the US has been directly involved in nearly half of all cases brought to WTO. Separately, large groups of countries decided to pursue negotiations on e-commerce, investment facilitation and removal of trade obstacles for medium and small scale industries. By itself this should not weaken WTO. But it comes at a time when there is growing frustration with gridlock at WTO.

India did well to defend its position on its food security programme. The envisaged reform package which will see a greater use of direct cash transfers to beneficiaries will be in sync with what developed countries do. But it's important for India to enhance its efforts to reinvigorate WTO. In this context, India's plan to organise a meeting of some countries early next year is a step in the right direction. WTO represents the best available platform to accommodate interests of a diverse set of nations. Therefore, India should be at the forefront of moves to fortify it.

What is the biggest threat to WTO's efficacy today?

Options:

- 1) India being not working in its best interest.
- 2) Lost of faith in WTO by US.
- 3) Negotiators of WTO are not decision takers.
- 4) WTO's lame attitude towards global trade.

Correct Answer: Lost of faith in WTO by US.

Candidate Answer: Negotiators of WTO are not decision takers.

One should consciously engage in activities that will nourish your soul. Just as we nourish the body, we need to nurture the soul to connect to the creative power of the universe and to manifest joy in our lives. Often, we forget to address the soul, lost as we are in a jungle of material and sensual pleasures. But the more you embrace what feeds your soul, the happier you become. So if you want to enjoy the abundance of life, engage in what enriches your soul. Nurturing the soul is all about finding calm amidst chaos. There are a number of practices that empower people towards this end including silent contemplation, various forms of meditation, yoga and tai chi. However, the rigor and discipline involved in the pursuit of such practices often seems to discourage people. Add to this, the temptations of the material world that leave little time and motivation for anyone to pursue the spiritual path. Poet Walt Whitman declared: "Whatever satisfies the soul is truth". The good news is that simple, everyday activities can also nutrify the soul — like spending time in the midst of nature, dancing in the rain or just putting thoughts on paper. Do whatever is calming and pleases you. Creative pursuits are particularly appealing as inside each one of us, there is an artist craving for release and awaiting an opportunity for expression. One of the ways to indulge the artist within is to get started with the practice of any one or more of the creative art forms such as music, singing, dancing, acting, drawing, painting, sculpting, poetry, fiction or essay writing.

When you engage in such soul nourishing activities, all thought and energy gets focused toward goal accomplishment. At this point, you will find that even unknown forces of the universe are conniving to assist you in your amateurish but sincere attempts. As you progress, you are motivated to do better. You touch and access a faculty, a part of you that you never knew existed. Your inner artist is unleashed, baring the beauty of your soul that has found a fond medium of expression. For instance, a sculptor's soul is seen in his artwork; a musician's in his compositions; an actor's in his acting, a painter's in his paintings and so on. It is immaterial whether your effort is an immaculate artwork or just a clumsy attempt by a layperson. The idea is to try, be inspired and to create giving free rein to the mind. As Michelangelo remarked: "I saw the angel in the marble and carved until I set him free"!

According to the passage, what makes us really happy?

Options:

- 1) A soulful music.
- 2) A soulful sculptures art.
- 3) Freeing our mind.
- 4) Embracing what feeds our soul.

Correct Answer: Embracing what feeds our soul.

Candidate Answer: Embracing what feeds our soul.

QID : 224 - A passage is given with five questions following it. Read the passage carefully and select the best answer to each question out of the given four alternatives.

The saddest part of life lies not in the act of dying, but in failing to truly live while we are alive. Too many of us play small with our lives, never letting the fullness of our humanity see the light of day. I've learned that what really counts in life, in the end, is not how many toys we have collected or how much money we've accumulated, but how many of our talents we have liberated and used for a purpose that adds value to this world. What truly matters most are the lives we have touched and the legacy that we have left. Tolstoy put it so well when he wrote: "We live for ourselves only when we live for others." It took me forty years to discover this simple point of wisdom.

Forty long years to discover that success cannot really be pursued. Success ensues and flows into your life as the unintended yet inevitable byproduct of a life spent enriching the lives of other people. When you shift your daily focus from a compulsion to survive towards a lifelong commitment to serve, your existence cannot help but explode into success. I still can't believe that I had to wait until the "half-time" of my life to figure out that true fulfillment as a human being comes not from achieving those grand gestures that put us on the front pages of the newspapers and business magazines, but instead from those basic and incremental acts of decency that each one of us has the privilege to practice each and every day if we simply make the choice to do so.

Mother Teresa, a great leader of human hearts if ever there was one, said it best: "There are no great acts, only small acts done with great love." I learned this the hard way in my life. Until recently, I had been so busy striving, I had missed out on living. I was so busy chasing life's big pleasures that I had missed out on the little ones, those micro joys that weave themselves in and out of our lives on a daily basis but often go unnoticed. My days were overscheduled, my mind was overworked and my spirit was underfed.

According to the passage, what does "failing to truly live while we are alive means."?

Options:

- 1) End up thinking of death all our lives.
- 2) Never letting the fullness of our humanity see the light of day.
- 3) Focus on basic and incremental acts of decency.
- 4) Over scheduling our days and over paying ourselves.

Correct Answer: Never letting the fullness of our humanity see the light of day.

Candidate Answer: Never letting the fullness of our humanity see the light of day.

Success ensues and flows into your life as the unintended yet inevitable byproduct of a life spent enriching the lives of other people. When you shift your daily focus from a compulsion to survive towards a lifelong commitment to serve, your existence cannot help but explode into success. I still can't believe that I had to wait until the "half-time" of my life to figure out that true fulfillment as a human being comes not from achieving those grand gestures that put us on the front pages of the newspapers and business magazines, but instead from those basic and incremental acts of decency that each one of us has the privilege to practice each and every day if we simply make the choice to do so.

Mother Teresa, a great leader of human hearts if ever there was one, said it best: "There are no great acts, only small acts done with great love." I learned this the hard way in my life. Until recently, I had been so busy striving, I had missed out on living. I was so busy chasing life's big pleasures that I had missed out on the little ones, those micro joys that weave themselves in and out of our lives on a daily basis but often go unnoticed. My days were overscheduled, my mind was overworked and my spirit was underfed.

According to the passage, what did Mother Teresa learned the hard way in her life?

Options:

- 1) That there are no great acts, only small acts are done with great love.
- 2) That she had been so busy striving that she had missed out on living.
- 3) That her days were over scheduled and her mind was over worked.
- 4) That she was so busy chasing life's big pleasures that she had missed out on the little one's.

Correct Answer: That there are no great acts, only small acts are done with great love.

Candidate Answer: That there are no great acts, only small acts are done with great love.

QID : 229 - A passage is given with five questions following it. Read the passage carefully and select the best answer to each question out of the given four alternatives.

Teaching about compassion and empathy in schools can help deal with problems of climate change and environmental degradation," says Barbara Maas, secretary, Standing Committee for Environment and Conservation, International Buddhist Confederation (IBC). She was in New Delhi to participate in the IBC's governing council meeting, December 10-11, 2017. "We started an awareness campaign in the year 2005-2006 with H H The Dalai Lama when we learnt that tiger skins were being traded in China and Tibet. At that time, I was not a Buddhist; I wrote to the Dalai Lama asking him to say that 'this is harmful' and he wrote back to say, "We will stop this." He used very strong words during the Kalachakra in 2006, when he said, 'If he sees people wearing fur and skins, he doesn't feel like living. 'This sent huge shock waves in the Himalayan community. Within six months, in Lhasa, people ripped the fur trim of their tubba, the traditional Tibetan dress.

The messenger was ideal and the audience was receptive," says Maas who is a conservationist. She has studied the battered fox's behavioral ecology in Serengeti, Africa. She heads the endangered species conservation at the Nature and Biodiversity Conservation Union (NABU) International Foundation for Nature, Berlin. "I met Samdhong Rinpoche, The Karmapa, HH the Dalai Lama and Geshe Lhakdor and I thought, if by being a Buddhist, you become like this, I am going for it," says Maas, who led the IBC initiative for including the Buddhist perspective to the global discourse on climate change by presenting the statement, 'The Time to Act is Now: a Buddhist Declaration on Climate Change,' at COP21 in Paris.

"It was for the first time in the history of Buddhism that leaders of different sanghas came together to take a stand on anything! The statement lists a couple of important things: the first is that we amass things that we don't need; there is overpopulation; we need to live with contentment and deal with each other and the environment with love and compassion," elaborates Maas. She is an ardent advocate of a vegan diet because "consuming meat and milk globally contributes more to climate change than all "transport in the world."

Turning vegetarian or vegan usually requires complete change of perspective before one gives up eating their favorite food. What are the Buddhist ways to bring about this kind of change at the individual level? "To change our behavior, Buddhism is an ideal vehicle; it made me a more contented person," says Maas, who grew up in Germany, as a sausage chomping, meat-loving individual. She says, "If I can change, so can anybody".

According to the passage, how can studying compassion and empathy in schools help?

Options:

- 1) It can help us understand and connect Buddhism.
- 2) It can help deal with problems of climate change and environmental degradation.
- 3) It can change our behaviours and make us more content person.
- 4) It can help us in turning vegetarian.

Correct Answer: It can help deal with problems of climate change and environmental degradation.

Candidate Answer: It can help deal with problems of climate change and environmental degradation.

Doing an internship at the University of Lille in France, I almost always found myself stuck whenever I had to speak to non-Indians about India or on anything 'Indian'. This was more because of the subtle differences in the way the French understood India in comparison to what I thought was 'Indian'. For instance, when I, or any Indian for that matter, say 'Hindi' is an Indian language, what it means is that it is one of the languages widely spoken in India. This need not be similar to the understanding that the French would have when they hear of 'Hindi' as an Indian language. Because for them Hindi then becomes the only language spoken in India. This is a natural inference that the French, Germans, Italians and many other European nationals would tend to make, because that is generally how it is in their own respective countries. The risk of such inappropriate generalisations made about 'Indian' is not restricted to language alone but also for India's landscape, cuisine, movies, music, climate, economic development and even political ideologies. The magnitude of diversity of one European country can be easily compared to that of one of the Indian State, isn't it? Can they imagine that India is one country whose diversity can be equated to that of the entire European continent? The onus is upon us to go ahead and clarify the nuances in 'Indianness' while we converse. But why should one do so? How does it even matter to clarify?

Why do some French people think that Hindi is the only Indian language?**Options:**

- 1) Because that is the way in most European countries
- 2) That is what is being taught to them
- 3) They know India is also called as Hindustan so people there must speak only Hindi
- 4) As most Indians they meet speak Hindi

Correct Answer: Because that is the way in most European countries**Candidate Answer:** Because that is the way in most European countries

This need not be similar to the understanding that the French would have when they hear of 'Hindi' as an Indian language. Because for them Hindi then becomes the only language spoken in India. This is a natural inference that the French, Germans, Italians and many other European nationals would tend to make, because that is generally how it is in their own respective countries. The risk of such inappropriate generalisations made about 'Indian' is not restricted to language alone but also for India's landscape, cuisine, movies, music, climate, economic development and even political ideologies. The magnitude of diversity of one European country can be easily compared to that of one of the Indian State, isn't it? Can they imagine that India is one country whose diversity can be equated to that of the entire European continent? The onus is upon us to go ahead and clarify the nuances in 'Indianness' while we converse. But why should one do so? How does it even matter to clarify?

According to the writer the responsibility of explaining the facts about India to Europeans rests with?

Options:

- 1) Europeans
- 2) Indians
- 3) Rest of the world
- 4) Indian Government

Correct Answer: Indians

Candidate Answer: Indians

QID : 249 - Read the passage carefully and choose the best answer to each question out of the four alternatives.

It was a bittersweet moment for me when I found out that I had been selected for the Sakura Science Exchange programme, a Robotics and IoT workshop in Japan. A fully-funded opportunity of a lifetime. Fly off to Saitama without a care on the world, and all I had to do was put into practice what I love to do – computer science. The bitter part of the episode – that I would lose two weeks of IB education, an almost literal mountain to cover when I got back – was quickly forgotten when I envisioned myself programming robots in the country that gave us Anime and sushi! It was with the eagerness to have an extended vacation in an un-visited land, and the opportunity to learn more about a subject that I am passionate about, that I headed to the Kempegowda International Airport outside Bengaluru. Little did I know this would be the experience of a lifetime, more for the endearing values of the Japanese culture that made their mark on me than anything else. The first feature of Japanese society that called out to me was the Discipline. Walking into the Narita International Airport, used as I was to the noisy crowds back in India, I quite literally lost my breath to the sight that awaited me. Be it the security check or baggage claim, somehow there was a silence that felt right. Everyone went about their activities without any confusion. And, contrary to the bharatiya custom of lazy pot-bellied officials, every guard and all counter personnel did what they were supposed to do to ensure this flow was maintained.

What was it that the writer did not like about his trip to Japan?

Options:

- 1) That the trip was so short
- 2) That he would be compelled to eat sushi
- 3) That he would miss a fortnight worth of IB education
- 4) That Japanese people are too disciplined

Correct Answer: That he would miss a fortnight worth of IB education

Candidate Answer: That he would miss a fortnight worth of IB education
